Caller Cards for the Greek Alphabet

On the other side of this page are *Caller* or *Matching Cards* for the letters of the Greek alphabet. Each of the 24 boxes includes two or three forms of a different vowel or consonant letter used to print or write Greek. The English pronunciation of each letter name, "spelled" in roman letters, is at the bottom of each box. The approximate transliteration of the letter sound into English follows an equals sign (=).
